Mills

TRE SPADE pepper and salt mills are made from traditional Italian products from PEFC-certified beech wood, guaranteeing correct and sustainable wood and forest management through rigorous environmental, social and economic standards.

The pepper mill mechanisms are made with:

- TRE SPADE conic mechanisms of special tempered steel with mechanically produced precision teeth, and come with a 25-year guarantee
- Steel shaft with anti-rust surface coating

The salt mill mechanisms are made with:

- TRE SPADE conic ceramic mills made in Italy
- Aluminum shaft

HISTORY OF TRE SPADE

Tre Spade, founded in 1894, has always been a family business with a strong dedication to handcrafted production with its roots in the green hills of Canavese, a small region North of Turin, Italy. Tre Spade has a long tradition of quality.

While initially only producing hot-forged tools, the company began making coffee grinders soon afterwards, which quickly grew into their main business. It acquired market leadership and has maintained that position for over seventy years.

In the 1920's the company started producing pepper mills - both the inner mechanism (the heart of the object) and the wooden body.

Cleavers

The standard Cleavers are designed for chopping through thin and soft bone. The Chinese Style Cleavers are also suited for chopping vegetables. Cleavers are not used for cutting through thick, hard bones – instead, it is recommended that you use a band saw, or a manual bone handsaw.

Cook/Chef Knives

Our knives are made of premium quality stainless steel. Each profile has been designed to exacting standards to ensure strength and durability. They are available in various Handle types, colors, and blade configurations to suit your needs. The average cook knife is 8-10 inches, and if you examine the knife on its side, you'll note that the blade heel is the widest part of the knife. When you're slicing ingredients that are tough you'll get the most leverage over your ingredients when you cut from the knife heel.

12902

A chef in a white uniform and gloves is stirring a pot in a kitchen. The chef is using a long wooden spoon to stir a large stainless steel pot on a stove. Another pot is visible in the background, and a tall stainless steel faucet is on the right. The scene is set in a professional kitchen with stainless steel surfaces and equipment.
