# Operation

---

## CORRECT USE

The knife grinder is intended only for sharpening non-serrated knives. Serrated blades and blades without handles must not be sharpened.

## USING THE MACHINE

- Wash the blades before grinding.
- Place the equipment on a well leveled, smooth, dry and stable surface.
- Turn the knob, located on the side, to adjust the distance of the grinding wheels, depending on whether there are knives with small or large blades. In this way, it is possible to adjust the angle of the sharpening.
- Place the blade between the two wheels and slide the blade.
- Slide the blade back and forth between the stones without pressing to obtain a professionally sharpened blade in a few seconds. The sharpening time depends on the wear of the knife edge.
- Repeat all of the previous operations on the next blade.
- Wash the blade after finishing the sharpening process.
- The motor can work for a maximum of 8-10 minutes, after this period of time, the motor must rest for 1 hour and 30 minutes in order to cool down.

# Maintenance

---

The grinder does not require any special maintenance. To clean the machine body, use only a damp cloth. Do not spray with water.
