## Installation

---

### PLUNGER ASSEMBLY

1. Slide the Plunger Seal onto the Plunger.
2. Assemble the Pressure Release Valve Kit onto the Plunger. From the top of the Plunger, place the Washer onto the Valve Hole, then insert the Screw through the Washer and into the Valve Hole. From the underside of the Plunger, place the Spring onto the end of the Screw, then place the Valve Cap onto the end of the Screw and twist to secure.
3. Screw the Plunger Bolt onto the Plunger Shaft.
4. Place the assembled Plunger onto the end of the Plunger Shaft.

### STUFFER ASSEMBLY

1. Attach the Handle by sliding it onto either the Fast or Slow Gear.
2. Crank the Handle to bring the Plunger to the top of the Stuffer.
3. Rest the Canister's Bottom Brackets onto the Canister Mounts inside the Housing of the Stuffer. Pivot the bottom of the Canister into the Stuffer Housing. Pivot the Canister fully into the Stuffer Housing, snapping the Top Brackets into the Canister Mounts.
4. Insert the Stuffing Funnel of choice through the Front Ring Nut. Screw the Front Ring Nut and Stuffing Funnel onto the mouth of the Canister until snug. Do not overtighten.
5. Thoroughly coat the inside of the Canister with a food-grade lubricant prior to use.

# Operation

---

## STUFFING INSTRUCTIONS

1. Tilt out the Canister.
2. Fill the Canister with the seasoned meat mixture.
3. Press the mixture down into the Canister firmly to remove any trapped air.
4. Pivot the Canister back into the upright position and snap the Top Brackets onto the Canister Mounts.
5. Turn the Handle until the Plunger comes in contact with the meat and the mixture is ready to extrude out the end of the Stuffing Funnel.
6. Slip a casing on the end of the Stuffing Funnel until the entire casing has slid onto the Funnel.
7. Tie, twist or hog ring the end of the casing to seal it.
8. Turn the handle to extrude the mixture into the casing. For best results, apply pressure around the casing, close to the end of the Stuffing Funnel. This will hold the casing tight and will cause the mixture to pack firmly into the casing.
9. When the end of the casing has been reached, tie, twist or hog ring the end of the casing to seal the contents inside.

## STUFFING TIPS

The following are suggestions to help reduce the resistance when stuffing with the 13mm Stuffing Funnel.

- Add water to the meat mixture - up to 1.5 cups (0.4L) of water per every 5 lbs. (2.3 kgs.) of seasoned meat.
- Add 0.25 cups (60ml) of vegetable or olive oil per every 5 lbs. (2.3 kgs.) of seasoned meat for better flow.

# Maintenance

---

## DISASSEMBLY AND CLEANING

1. Remove the Stuffing Funnel by unscrewing the Front Ring Nut and pulling the Funnel out.
2. Turn the Handle until the Plunger comes up and out of the Canister.
3. Pivot the Canister outward, then pull the Canister up to remove the Canister from the Stuffer Housing.
4. Unscrew the Plunger from the Plunger Shaft. Disassemble the Pressure Release Valve from the Plunger. Remove the Plunger Seal from the Plunger.
5. Wash all parts that have come into contact with meat in hot soapy water. BE SURE TO CLEAN THE PARTS IMMEDIATELY AFTER USE. Rinse and thoroughly dry all part immediately. Sterilize as needed.
6. Fully lubricate the Shaft, Canister, Pressure Release Valve components and the Front Ring Nut with a foodgrade lubricant before and after each use.
