# Safety and Warranty

---

## SAFETY

Please take notice that the unit will still be too hot to handle immediately after use.

The contact grill has a thermal cut-off safety device to avoid over heating.

If the power cord is damaged, it must be replaced by qualified technician.

# **Safety and Warranty**

## Installation

---

Take out the contact grill from the packaging and locate the unit on a firm level surface.

When this appliance is to be positioned in close proximity to a wall, partitions, kitchen furniture, decorative finished, etc., it is recommended that they be made of non-combustible material, if not, they shall be clad with a suitable non-combustible heat-insulating material, and that the closet attention be paid to fire prevention regulations.

### PROGRAMMABLE TIMER INSTRUCTIONS

**Note: be sure the unit is unplugged and cool prior to installing or removing the programmable timer.**

1. Installing the batteries - 2pcs AAA 1.5V battery.

Place your fingers on the two tabs on the sides of the timer and firmly depress and pulling towards you, the timer is released from the unit, then open battery box cover, install batteries in, then slide battery cover back into the position. Check timer to ensure power is supplied by pressing "-". Insert timer into the port until side tabs lock into place.

2. Programming the timer.

**Note: the timer will not automatically shut off your unit. Once your programmed time has lapsed, the unit will beep 5 times and the screen will go blank.**

### PROGRAM MANUALLY

To manually program the timer, hold both “-” and “+” at the same time for four seconds. The timer will beep twice. After the second beep, use the “-” and “+” to scroll to your desired time setting up to 19:59. For fast scroll, hold the button down until you have reached your desired time setting. The timer will automatically

# Installation

---

program the setting after five seconds. Now that you have programmed your time, you may press the “-” button any time to start the timer. Once programmed, the timer will always default to the time setting until otherwise changed.

## PROGRAM USING COUNT-UP MODE

Your programmable timer allows you to program your time using count-up mode. This is convenient for when you need to first measure the time required to grill your sandwich before programming. Once you have started grilling, press the “+” button to start the timer. When you have finished grilling, press both “-” and “+” to set the time. Once programmed, the timer will always default to this time setting until otherwise changed.

**Note: when batteries are removed, the timer automatically defaults to the factory setting of 10 seconds.**

## BEFORE FIRST USE

Initial burn-off of factory sediments and seasoning/curing of cast iron plates:

1. Place grill in a well-ventilated area under an exhaust hood.
2. Remove protective paper from grill surface.
3. Plug grill in, turn thermostat knob to maximum setting and switch the unit ON with top grill plate in closed position. This will dry off any remaining moisture and will burn off all factory sediments from grill and on grill surfaces. The unit will visibly smoke as it continues the burn-off.
4. When burn-off has completed (smoking has ceased), turn the unit OFF, open grill fully and allow to cool for about an hour.
5. Clean grill surface with cleaning brush using cleaning liquid and hot water. Rinse and dry thoroughly.
6. When unit has cooled, apply a very thin, even layer of shortening, fat or lard to the surface of the top and bottom grill plates.

**NOTE: liquid vegetable oil can also be used, but should first dry to the surface before cleaning the cast iron plate thoroughly is advised. Warm up the cast iron plate for 10 minutes until all smoke and/or odor has dissipated. Switch off and unplug the unit, then use warm, soapy water to clean. NEVER USE COLD WATER ON THE HOT PLATE.**

# Operation

---

Always preheat the grill before use until the ready light illuminates.

Lift the top grill plate, arrange food on the bottom plate and bring top plate back down to make contact with food and begin cooking. If additional sandwiches are desired, lower the lid to preserve the heat while you prepare the additional sandwiches. When not cooking, the thermostat is turned off, switch off the on/off switch, unplug the unit.

# Maintenance

---

Be sure to always wash the grill plates after each use to remove any residue that may have accumulated.

## CAST IRON NOTES

- Clean cast iron cook plates with brush, scraper or dry rag.
- Do not use water or chemicals to clean cook plates.
- Anti-rust paint on cook plate will come off after first use.

Do not use cold water on hot plate.

After cleaning, be sure the oil tray must be dry thoroughly before putting them back to the unit.

Do not immerse completely in water or any liquid to clean.

The appliance is not to be cleaned with a water jet.

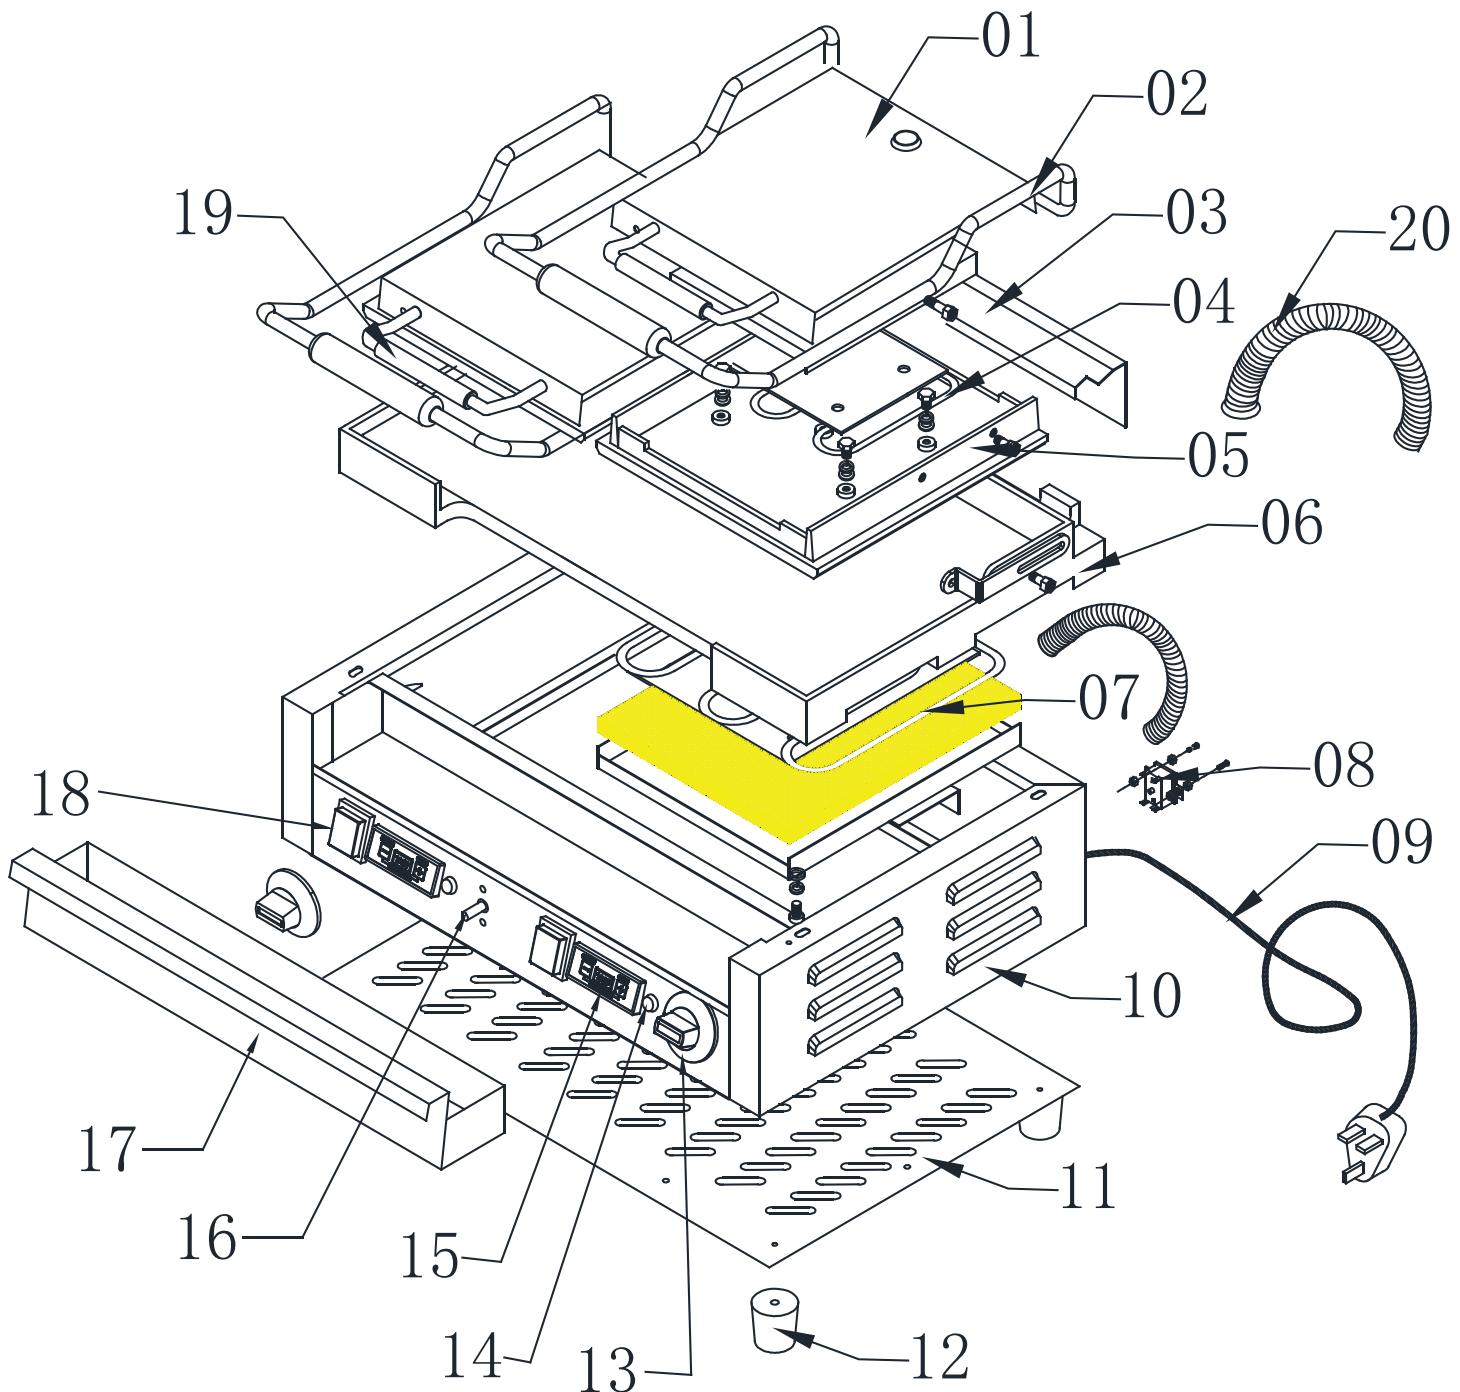

## HELP

If the contact grill does not work, please check the following:

1. The power supply is correct and switched on.
2. The positions of switch and thermostat are correct.
