General Information

Omcan Manufacturing and Distributing Company Inc., Food Machinery of America, Inc. dba Omcan and Omcan Inc. are not responsible for any harm or injury caused due to any person's improper or negligent use of this equipment. The product shall only be operated by someone over the age of 18, of sound mind, and not under the influence of any drugs or alcohol, who has been trained in the correct operation of this machine, and is wearing authorized, proper safety clothing. Any modification to the machine voids any warranty, and may cause harm to individuals using the machine or in the vicinity of the machine while in operation.

CHECK PACKAGE UPON ARRIVAL

Upon receipt of an Omcan shipment please inspect for external damage. If no damage is evident on the external packaging, open carton to ensure all ordered items are within the box, and there is no concealed damage to the machine. If the package has suffered rough handling, bumps or damage (visible or concealed), please note it on the bill of lading before accepting the delivery and contact Omcan within 24 hours, so we may initiate a claim with the carrier. A detailed report on the extent of the damage caused to the machine must be filled out within three days, from the delivery date shown in the shipping documents. Omcan has no recourse for damaged products that were shipped collect or third party.

Before operating any equipment, always read and familiarize yourself with all operation and safety instructions.

Omcan would like to thank you for purchasing this machine. It's of the utmost importance to save these instructions for future reference. Also save the original box and packaging for shipping the equipment if servicing or returning of the machine is required.

Omcan Fabrication et distribution Companie Limité et Food Machinery d'Amerique, dba Omcan et Omcan Inc. ne sont pas responsables de tout dommage ou blessure causé du fait que toute personne ait utilisé cet équipement de façon irrégulière. Le produit ne doit être exploité que par quelqu'un de plus de 18 ans, saine d'esprit, et pas sous l'influence d'une drogue ou d'alcool, qui a été formé pour utiliser cette machine correctement, et est vêtu de vêtements de sécurité approprié. Toute modification de la machine annule toute garantie, et peut causer un préjudice à des personnes utilisant la machine ou des personnes à proximité de la machine pendant son fonctionnement.

VÉRIFIEZ LE COLIS DÈS RÉCEPTION

Dès réception d'une expédition d'Omcan veuillez inspecter pour dommages externes. Si aucun dommage n'est visible sur l'emballage externe, ouvrez le carton afin de s'assurer que tous les éléments commandés sont dans la boîte, et il n'y a aucun dommage dissimulé à la machine. Si le colis n'a subi aucune mauvaises manipulations, de bosses ou de dommages (visible ou cachée), notez-le sur le bond de livraison avant d'accepter la livraison et contactez Omcan dans les 24 heures qui suivent, pour que nous puissions engager une réclamation auprès du transporteur. Un rapport détaillé sur l'étendue des dommages causés à la machine doit être rempli dans un délai de trois jours, à compter de la date de livraison indiquée dans les documents d'expédition. Omcan n'a aucun droit de recours pour les produits endommagés qui ont été expédiées ou cueillies par un tiers transporteur.

General Information

Avant d'utiliser n'importe quel équipement, toujours lire et vous familiariser avec toutes les opérations et les consignes de sécurité.

Omcan voudrais vous remercier d'avoir choisi cette machine. Il est primordial de conserver ces instructions pour une référence ultérieure. Également conservez la boîte originale et l'emballage pour l'expédition de l'équipement si l'entretien ou le retour de la machine est nécessaire.

Omcan Empresa De Fabricacion Y Distribucion Inc. Y Maquinaria De Alimentos De America, Inc. dba Omcan y Omcan Inc. no son responsables de ningun daño o perjuicio causado por cualquier persona inadecuada o el uso descuidado de este equipo. El producto solo podra ser operado por una persona mayor de 18 años, en su sano juicio y no bajo alguna influencia de droga o alcohol, y que este ha sido entrenado en el correcto funcionamiento de esta máquina, y ésta usando ropa apropiada y autorizada. Cualquier modificación a la máquina anula la garantía y puede causar daños a las personas usando la máquina mientras esta en el funcionamiento.

REVISE EL PAQUETE A SU LLEGADA

Tras la recepcion de un envio Omcan favor inspeccionar daños externos. Si no hay daños evidentes en el empaque exterior, Habra el carton para asegurararse que todos los articulos solicitados estén dentro de la caja y no encuentre daños ocultos en la máquina. Si el paquete ha sufrido un manejo de poco cuidado, golpes o daños (visible o oculto) por favor anote en la factura antes de aceptar la entrega y contacte Omcan dentro de las 24 horas, de modo que podamos iniciar una reclamación con la compañía. Un informe detallado sobre los daños causados a la máquina debe ser llenado en el plazo de tres días, desde la fecha de entrega que se muestra en los documentos de envío. Omcan no tiene ningun recurso por productos dañados que se enviaron a recoger por terceros.

Antes de utilizar cualquier equipo, siempre lea y familiarizarse con todas las instrucciones de funcionamiento y seguridad.

Omcan le gustaría darle las gracias por la compra de esta máquina. Es de la mayor importancia para salvar estas instrucciones para futuras consultas. Además, guarda la caja original y el embalaje para el envío del equipo si servicio técnico o devolución de la máquina que se requiere.

Safety and Warranty

Thanks for using this high performance, reversible sheeter. It will assist in making bread, cheese, cake and many other products. Before using this machine, please carefully read this manual and follow the procedures to operate the machine.

All the safety devices must be checked before operation. Maintenance should be done immediately when defects or malfunction are found.

Safety and Warranty

1. Check the warning signs on the machine.
2. Clean up any water, oil and liquids on the machine immediately when found. This will prevent injury.
3. Keep your body away from any moving part of the machine.
4. Do not let foreign objects enter the machine while operating.
5. Do not climb onto the machine while it is running.
6. If any problems occur in the process of operation, press the Emergency Stop button.

RESIDENTIAL USERS: Vendor assumes no liability for parts or labor coverage for component failure or other damages resulting from installation in non-commercial or residential applications. The right is reserved to deny shipment for residential usage; if this occurs, you will be notified as soon as possible.

1 YEAR PART AND LABOUR WARRANTY

Within the warranty period, contact Omcan Inc. at 1-800-465-0234 to schedule an Omcan authorized service technician to repair the equipment locally.

Unauthorized maintenance will void the warranty. Warranty covers electrical and part failures, not improper use.

Please see <https://omcan.com/disclaimer> for complete info.

WARNING:

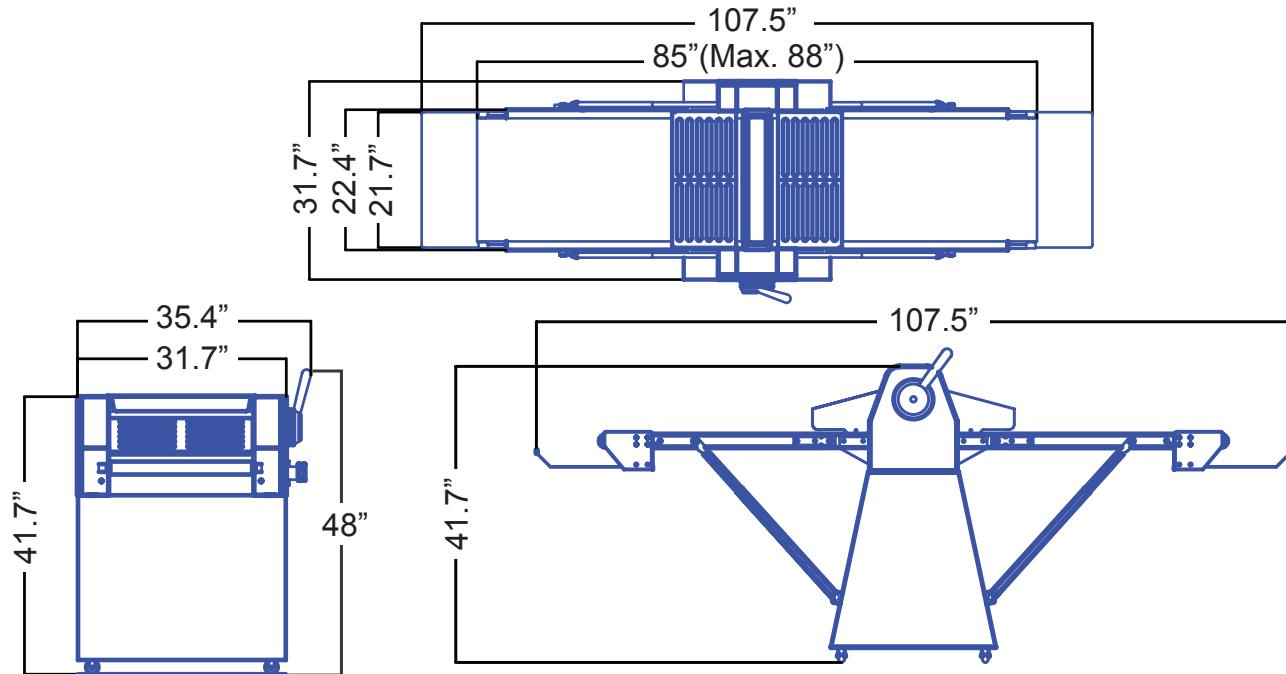

The packaging components (cardboard, polyethylene, and others) are classified as normal solid urban waste and can therefore be disposed of without difficulty.

In any case, for suitable recycling, we suggest disposing of the products separately (differentiated waste) according to the current norms.

DO NOT DISCARD ANY PACKAGING MATERIALS IN THE ENVIRONMENT!

Technical Specifications

Model	BE-CN-2083-FSS
Electrical	220V / 60Hz / 1
Power	0.75 HP / 0.55 kW
Roller Size (Dia. x W)	3.5" x 20.5" / 88 x 520mm
Roller Adjustable Gap	1 - 35 mm
Conveyor Belt Width	19.75" / 502mm
Conveyor Width	22.5" / 572mm
Conveyor Belt Speed	18m/min - 32m/min
Roller Speed	124r/min
Maximum Dough Capacity	11 lbs. / 5 kgs.
Maximum Working Position Dimensions (DWH)	31.7" x 88" x 41.7" / 805 x 2235 x 1060mm
Resting Position Dimensions (WH)	26" x 63" / 660 x 1600mm
Packaging Dimensions	37" x 29" x 66" / 940 x 737 x 1676mm
Weight	419 lbs. / 190 kgs.
Packaging Weight	512 lbs. / 232 kgs.
Item Number	44135

Installation

1. Installation must be performed on a flat, dry surface with a stable temperature environment. Press down pedals of active wheels to lock the machine.
2. Follow the instructions on the plaque of electrical cabinet to connect power supply. The breaker for power supply should be installed on the wall with 1.7 m height from the floor.
3. Pull conveyor straight, put down the table and then put down both safety guards.
4. Then check the movement of the conveyors. Press the left-hand side pedal and the conveyors move left. Press the right-hand side pedal and the conveyors move right. If the movement is in the wrong direction, change the two wires of the power supply and re-test the machine.
5. The power cord must be grounded.

Operation

1. When using machine, set up the thickness handle to the farthest left position.
2. Note: do not put hands in or near the safety guard.
3. Switch off the power when cleaning and disconnect the power mains.
4. Turn off power switch and then lift up the safety guards after operation.

The machine needs to be placed in a dry, stable temperature environment. Make sure the safety guards are always used during operation. To start, use the pedal switch. Press the left-hand side switch and the conveyors move left. Press right-hand side switch, the conveyors will move right. If the movement is opposite from the desired direction, change the two wires of the power supply and re-test the machine. Make sure the electrical requirements of the machine correspond with the power supply before operating this machine.

Maintenance

REPLACING THE GEARS:

First switch off the power and lift up the safety guards. Then use a screw driver to dismantle the side plate of lower machine body and disconnect the three electrical wires on the connecting box. Then set the thickness handle to scale "O". Use the alan-key on M5 to open the cover take out the gear housing. Next replace the gears. After replacement, reverse the listed procedures and set the thickness handle to scale "O".

REPLACING THE DRIVING ROLLER AND BEARING:

Switch off the power and lift up the safety guards. Then use the alan-key to open the cover. Loosen the nuts of bearing using a cross type screw driver to move the bearing through the joint or roller and bearing. Replace the roller and assembly by reversing the listed procedures.

Maintenance

CHANGING THE CONVEYORS:

- Remove the roller by following the procedures mentioned above.
- Apply spanner M8 to take the belts on roller and remove product tray.
- Apply spanner M24 to loosen the nuts of roller.
- Use spanner M16 to loosen the belts of support and separate the table.
- Use spanner M10 to take away the belts from the table holder and separate them.
- Dismantle the table and belts for replacement.
- Complete assembly by reversing the listed procedures.
- The tightness of belts should be correct. When the machine is running press the belts slightly and check if a slip happened between belts and roller.

CLEANING:

After work is finished every day, please turn the power switch off, then perform the cleaning process as stated below:

1. Fold the conveyor belt plate, then clean the residual dough and sundries that remain on the conveyor belt roller.
2. Clean the residual dough that is left on the upper and lower roller and scraper. Ensure that there is nothing left on the roller and scraper.

Note: Do not use pressurized water jets to clean the unit. Do not use a knife or hard object to scrape the rollers, use a damp cloth instead. Do not use stainless steel or other metal blades to scrape the conveyor belt surface, use the plastic scraper to clean the conveyor belt surface.

Troubleshooting

Problem	Possible Causes
The machine does not work.	Is the power supply on? Is the power switch on? Has the safety guard been put down? Lift safety guard, start level and check if you hear a click from the limit switch.
Electrical cabinet continuously vibrates.	Is the belt loose? Are the wires improperly connected? Is there something inside the electrical cabinet?

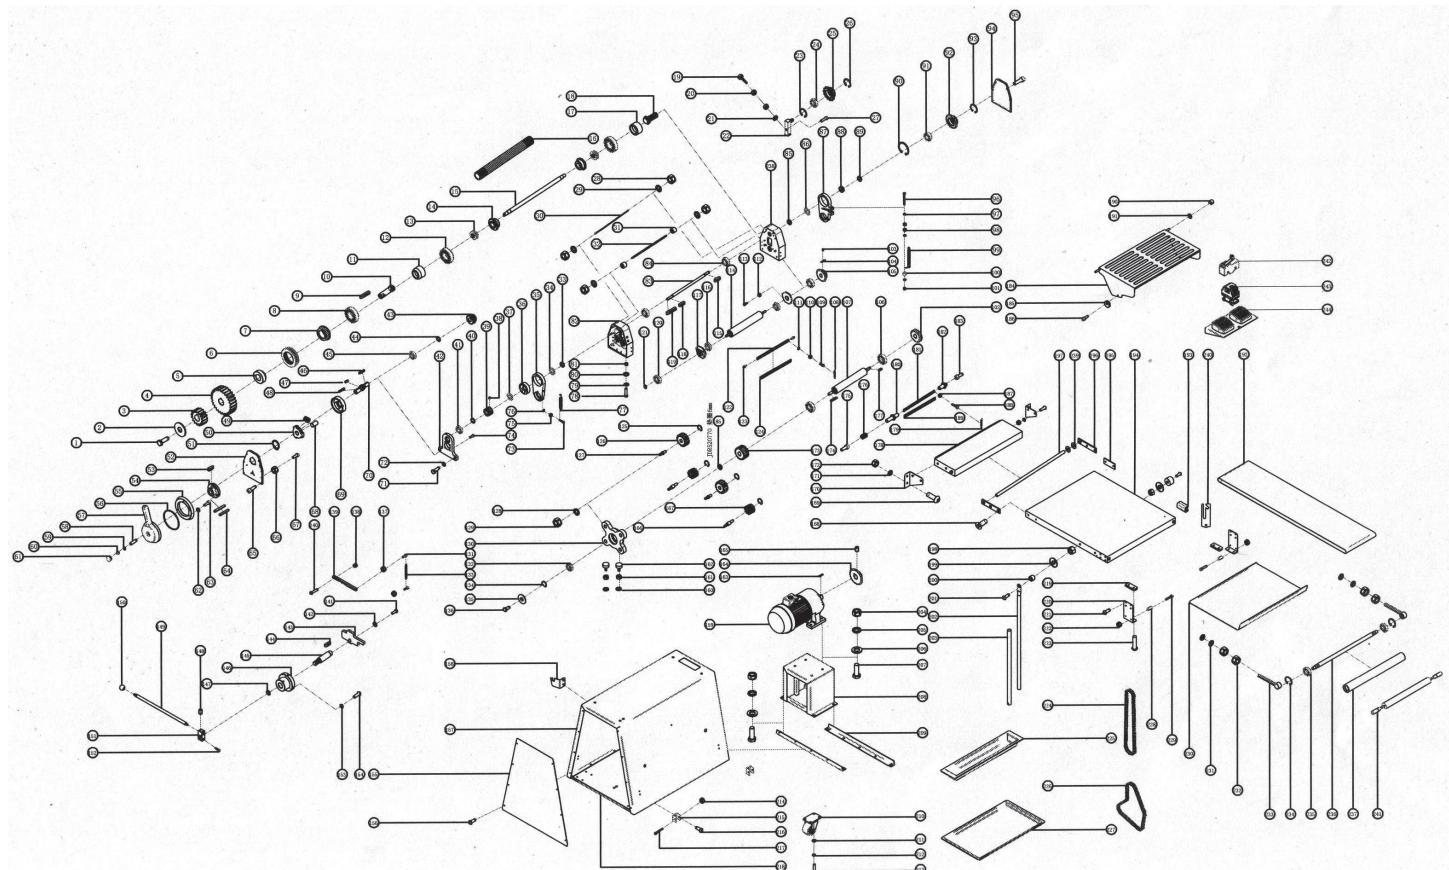

Troubleshooting

The machine only works on one side.	Has the breaker failed?
	The wiring of the Level or limit switch failed?
	Is the wiring of the motor incorrect?
	Is the electricity not three phase?
One conveyor side works while the other side has stopped.	The gear is worn out.
	Conveyor belt is not tight enough.
Thickness handle cannot stay fixed and falls downward.	If machine runs smoothly when toward the right-hand side but does not when toward left-hand side, this means the chain inside the rear of the machine body is too loose. Set the handle at a scale of 15-20, and use a screw driver to open the cover. Apply spanner to adjust motor plate to tighten chain. Check if handle can be operated smoothly.
Conveyor moves toward one side during production.	Adjusting the nuts to let the belt move straight. For example, if belt moves toward the rear side, loosen the front nut. When adjusting the nuts, make sure that the speed of belt is the same as roller and there are no gaps between the roller and belt.
Noise from roller.	Bearing wore out.
	If noise comes from the pressing roller & scraper and conveyor, something is stuck on the active roller. To clean the active roller simply lift the table. Refer to assembly drawing for active roller and passive roller position.
Conveyor is too tight.	Machine is located in a humid area and this may cause the conveyor to become shorter. If conveyors arc is too tight, loose nuts during regular inspection. If conveyors are too tight, it may:
	Not have sufficient horse power.
	Damaged bearing & shaft of active roller and passive roller.
	Over load and damage to the driving gear.

NOTE: FOR ELECTRICAL AND MECHANICAL REPAIRS, PLEASE CONTACT AN AUTHORIZED AND QUALIFIED TECHNICIAN.

Since 1951 Omcan has grown to become a leading distributor of equipment and supplies to the North American food service industry. Our success over these many years can be attributed to our commitment to strengthen and develop new and existing relationships with our valued customers and manufacturers. Today with partners in North America, Europe, Asia and South America, we continually work to improve and grow the company. We strive to offer customers exceptional value through our qualified local sales and service representatives who provide convenient access to over 5,000 globally sourced products.

Depuis 1951 Omcan a grandi pour devenir un des "leaders" de la distribution des équipements et matériel pour l'industrie des services alimentaires en Amérique du Nord. Notre succès au cours de ces nombreuses années peut être attribué à notre engagement à renforcer et à développer de nouvelles et existantes relations avec nos clients et les fabricants de valeur. Aujourd'hui avec des partenaires en Amérique du Nord, Europe, Asie et Amérique du Sud, nous travaillons continuellement à améliorer et développer l'entreprise. Nous nous efforçons d'offrir à nos clients une valeur exceptionnelle grâce à nos ventes locales qualifiées et des représentants de service qui offrent un accès facile à plus de 5000 produits provenant du monde entier.

Desde 1951 Omcan ha crecido hasta convertirse en un líder en la distribución de equipos y suministros de alimentos en América del Norte industria de servicios. Nuestro éxito en estos años se puede atribuir a nuestro compromiso de fortalecer y desarrollar nuevas relaciones existentes con nuestros valiosos clientes y fabricantes. Hoy con socios de América del Norte, Europa, Asia y América del Sur, que trabajan continuamente para mejorar y crecer la empresa. Nos esforzamos por ofrecer a nuestros clientes valor excepcional a través de nuestro local de ventas y representantes de los servicios que proporcionan un fácil acceso a más de 5,000 productos con origen a nivel mundial.
