General Information

Omcan Manufacturing and Distributing Company Inc., Food Machinery of America, Inc. dba Omcan and Omcan Inc. are not responsible for any harm or injury caused due to any person's improper or negligent use of this equipment. The product shall only be operated by someone over the age of 18, of sound mind, and not under the influence of any drugs or alcohol, who has been trained in the correct operation of this machine, and is wearing authorized, proper safety clothing. Any modification to the machine voids any warranty, and may cause harm to individuals using the machine or in the vicinity of the machine while in operation.

CHECK PACKAGE UPON ARRIVAL

Upon receipt of an Omcan shipment please inspect for external damage. If no damage is evident on the external packaging, open carton to ensure all ordered items are within the box, and there is no concealed damage to the machine. If the package has suffered rough handling, bumps or damage (visible or concealed), please note it on the bill of lading before accepting the delivery and contact Omcan within 24 hours, so we may initiate a claim with the carrier. A detailed report on the extent of the damage caused to the machine must be filled out within three days, from the delivery date shown in the shipping documents. Omcan has no recourse for damaged products that were shipped collect or third party.

Before operating any equipment, always read and familiarize yourself with all operation and safety instructions.

Omcan would like to thank you for purchasing this machine. It's of the utmost importance to save these instructions for future reference. Also save the original box and packaging for shipping the equipment if servicing or returning of the machine is required.

Omcan Fabrication et distribution Compañie Limité et Food Machinery d'Amérique, dba Omcan et Omcan Inc. ne sont pas responsables de tout dommage ou blessure causé du fait que toute personne ait utilisé cet équipement de façon irrégulière. Le produit ne doit être exploité que par quelqu'un de plus de 18 ans, saine d'esprit, et pas sous l'influence d'une drogue ou d'alcool, qui a été formé pour utiliser cette machine correctement, et est vêtu de vêtements de sécurité approprié. Toute modification de la machine annule toute garantie, et peut causer un préjudice à des personnes utilisant la machine ou des personnes à proximité de la machine pendant son fonctionnement.

VÉRIFIEZ LE COLIS DÈS RÉCEPTION

Dès réception d'une expédition d'Omcan veuillez inspecter pour dommages externes. Si aucun dommage n'est visible sur l'emballage externe, ouvrez le carton afin de s'assurer que tous les éléments commandés sont dans la boîte, et il n'y a aucun dommage dissimulé à la machine. Si le colis n'a subi aucune mauvaises manipulations, de bosses ou de dommages (visible ou cachée), notez-le sur le bond de livraison avant d'accepter la livraison et contactez Omcan dans les 24 heures qui suivent, pour que nous puissions engager une réclamation auprès du transporteur. Un rapport détaillé sur l'étendue des dommages causés à la machine doit être rempli dans un délai de trois jours, à compter de la date de livraison indiquée dans les documents d'expédition. Omcan n'a aucun droit de recours pour les produits endommagés qui ont été expédiés ou cueilli par un tiers transporteur.

General Information

Avant d'utiliser n'importe quel équipement, toujours lire et vous familiariser avec toutes les opérations et les consignes de sécurité.

Omcan voudrais vous remercier d'avoir choisi cette machine. Il est primordial de conserver ces instructions pour une référence ultérieure. Également conservez la boîte originale et l'emballage pour l'expédition de l'équipement si l'entretien ou le retour de la machine est nécessaire.

Omcan Empresa De Fabricacion Y Distribucion Inc. Y Maquinaria De Alimentos De America, Inc. dba Omcan y Omcan Inc. no son responsables de ningun daño o perjuicio causado por cualquier persona inadecuada o el uso descuidado de este equipo. El producto solo podra ser operado por una persona mayor de 18 años, en su sano juicio y no bajo alguna influencia de droga o alcohol, y que este ha sido entrenado en el correcto funcionamiento de esta máquina, y ésta usando ropa apropiada y autorizada. Cualquier modificación a la máquina anula la garantía y puede causar daños a las personas usando la máquina mientras esta en el funcionamiento.

REVISE EL PAQUETE A SU LLEGADA

Tras la recepcion de un envio Omcan favor inspeccionar daños externos. Si no hay daños evidentes en el empaque exterior, Habra el carton para asegurarse que todos los articulos solicitados estén dentro de la caja y no encuentre daños ocultos en la máquina. Si el paquete ha sufrido un manejo de poco cuidado, golpes o daños (visible o oculto) por favor anote en la factura antes de aceptar la entrega y contacte Omcan dentro de las 24 horas, de modo que podamos iniciar una reclamación con la compañía. Un informe detallado sobre los daños causados a la máquina debe ser llenado en el plazo de tres días, desde la fecha de entrega que se muestra en los documentos de envío. Omcan no tiene ningun recurso por productos dañados que se enviaron a recoger por terceros.

Antes de utilizar cualquier equipo, siempre lea y familiarizarse con todas las instrucciones de funcionamiento y seguridad.

Omcan le gustaría darle las gracias por la compra de esta máquina. Es de la mayor importancia para salvar estas instrucciones para futuras consultas. Además, guarda la caja original y el embalaje para el envío del equipo si servicio técnico o devolución de la máquina que se requiere.

Safety and Warranty

When using, maintaining or disposing of the machine, always follow these basic instructions.

Read all instructions

Note: you will find it easier to understand the next few paragraphs if you refer to the diagrams at the end of this manual.

Safety and Warranty

INSTALLATION AND HANDLING

During unpacking in particular, you are advised to have 2 people to handle the machine. For ease of use, it is recommended the machine is placed on a table or work surface so as to have the juice spout in front of you (recommended height: 90 cm, to be adapted as required to the user).

Warning: watch out for a possible slippery floor adjacent to the appliance.

During cleaning and installation, handle the sieve (13), carefully so as not to put it out of shape thus preventing the machine from working properly.

IMPROPER USE

1. Do not place food in the feed channel and press with the plunger before you have started the machine.
2. The appliance is not designed for handling frozen foods.
3. Remove stones from fruit before processing it in the machine (e.g. mangoes, apricots, peaches). Do not let the stones go into the machine.
4. Do not place anything other than food in the feed channel.
5. Do not place hard food in the feed channel.
6. The machine must not be left to operate without supervision.
7. Neither a hose nor a pressure hose should be used for cleaning.
8. Do not use abrasive sponges for cleaning the basket.
9. The appliance must not be used on any surface which has a slope of more than 10° relative to the horizontal. The machine's 4 feet must always be resting on this surface. The machine's motor spindle must always be vertical relative to this surface.
10. Never plunge the base in water or any other liquid for reasons of protection against risks of electrocution.
11. The appliance must be unplugged before any intervention on it: cleaning, servicing, maintenance.
12. The use of spare parts other than certified original Omcan parts is prohibited.
13. Do not use the appliance if the power supply cord is damaged. It must be replaced by either a Omcan approved dealer, Omcan or a person with similar qualifications to avoid any danger.
14. Never connect several appliances to the same power socket.
15. Never use the appliance outdoors.
16. Never place the appliance close to or on a source of heat.
17. This appliance is a professional machine designed exclusively for professional use. It is not designed for household use.
18. This appliance is not designed for use by people (including children) whose physical, sensorial or mental capacities are impaired or by people with no experience or knowledge, unless they have been supervised or given training in the use of the appliance beforehand by a person responsible for their safety.

Supervise children to ensure they do not play with the appliance.

CAREFUL:

- Before connecting the machine, check that the mains electrical voltage is the same as the voltage for your appliance. Its value is shown:
 - either on the identification plate under or behind the machine.

Safety and Warranty

- or in the technical specification section of this manual.

- If the power supply cable (22) is damaged, it should be replaced by a Omcan approved dealer, Omcan or a person with similar qualifications to avoid any danger.
- The plug must remain easily accessible while the appliance is in use.

USING FOR THE 1ST TIME

1. Lift up the cover (2) after turning the unlocking lever (6) by one quarter of a turn. Fig. 2.
2. Lock the cover (2) in the top position.
3. Turn and remove the bowl (1). Fig. 3.
4. Remove the top screw (11).
5. Remove the bottom screw (12).
6. Remove the sieve (13) with the 2 scrapers (15).
7. Unscrew the discharge cone (17) by pressing down and remove the seal (18) and the ring (19). Fig.4.
8. Wash all the components in contact with the food in clean water: the plunger (4), the feed channel (3), the bowl (1), the top screw (11), the bottom screw (12), the sieve (13), the scrapers (15), the discharge cone (17), the seal (18), the ring (19) and the pulp container (5). Fig.5.

1 YEAR PARTS AND LABOUR BENCH WARRANTY

Within the warranty period, contact Omcan Inc. at 1-800-465-0234 to schedule a drop off to either an Omcan authorized service depot in the area, or to an Omcan Service warehouse to repair the equipment.

Unauthorized maintenance will void the warranty. Warranty covers electrical and part failures, not improper use.

Please see <https://omcan.com/disclaimer> for complete info.

WARNING:

The packaging components are classified as normal solid urban waste and can therefore be disposed of without difficulty.

In any case, for suitable recycling, we suggest disposing of the products separately (differentiated waste) according to the current norms.

DO NOT DISCARD ANY PACKAGING MATERIALS IN THE ENVIRONMENT!

Technical Specifications

Model	SANTOS 65
Power	650 W
Electrical	120V / 60Hz / 1
Current	5A
RPM	80 RPM
Dimensions	9.3" x 16.2" x 25.3" / 236 x 411 x 643mm
Weight	61.7 lbs. / 28 kgs.
Packaging Weight	70.5 lbs. / 32 kgs.
Item Number	45923

Operation

STARTING UP

ASSEMBLY AND PREPARATION

- Fit the scrapers (15) around the sieve (13) and insert the assembly into the bottom of the bowl (1). Fig.6.
Careful: line up the pins of the bowl (1) with the housings of the sieve (13). Fig.7.
- Turn over the bowl (1) and fit the ring (19), the seal (18) before screwing in the discharge cone (17). Fig.9 and Fig.10.
- Place the bowl (1) on the machine.
- Position the bottom screw (12). Fig.11.
Careful: position the 2 bosses of the screw (12) in the 2 housings of the scrapers (15). Fig.14.
- Position the top screw (11). Fig.12.
- Turn the unlocking lever (6) a quarter of a turn and lower the cover (2).
Careful: if the cover (2) is not locked (unlocking lever not aligned with the appliance, Fig.13), raise it and turn the top screw slightly (11) or check the position of the internal screw (12).
- Position the feed channel (3). Fig.15.
- Install the scrap bucket (5).
- Connect the power supply cord plug (22) to your mains support socket. Fig.16.
- Remove the fruit plunger (4) from the feed channel (3).

USE

- Place the recipient under the bowl spout (1).
- Start the machine, by operating the "On/Off" button (9).
- Introduce the food into the feed channel (3) and, if required, push it down with the fruit plunger (4).
- Continue this operation until the juice recipient is full or all the fruit and vegetables to be processed have been used. Also keep an eye on the level of pulp in the pulp container (5).

SIEVE

The appliance comes with a sieve (13) with small holes for juices. A sieve (14) with big holes for coulis is avail-

Operation

able as an option. Fig.8.

HOW TO STOP THE MACHINE

The appliance is stopped:

1. By pushing the "On/Off" push button (9).
2. By unplugging the mains cord plug (22).

DETECTION OF HARD FOOD

The machine can detect when hard food is inserted inside. In this case, it automatically performs up to 3 successive reciprocating movements to try and unblock the screws. If after this operation, there is still local friction, the machine will stop. It is then necessary to take down the screws and clean them.

Maintenance

JAMMING

Food may get jammed in the screw and prevent more from going through. You are advised to perform a backward operation for a few seconds by pressing the backward operation button (10) for a few seconds. Repeat this operation several times as required. If the jam persists, take down the screws and clean them.

CLEANING

Handle the sieve (13) and the screws (11/12) carefully so as not to put them out of shape thus preventing the machine from working properly. To clean the sieve (13), it is recommended to use the brush (23) supplied with the machine, for proper cleaning of the filter sieve holes. Do not use abrasive sponges for cleaning the machine. Take down the seals (16), (18), (20) and (21) to clean them with the brushes (23) and (24) and put them back as shown in the photos Fig.17, Fig.9, Fig.22, and Fig.20. Cleaning will be easier if you do not wait for the food remains to dry in the moving parts of the machine.

PRECAUTIONS AND RISKS

Do not place any objects other than food in the machine. During preparation, the level in the pulp container (5) should be monitored to prevent the pulp outlet from clogging. Such clogging could result in a machine dysfunction. The quantity of products to be processed before reaching the maximum filling level in the container (5) varies according on the products being processed.

MOTOR OVERHEATING SAFETY FEATURE

In the event of one of the 2 motors overheating, the appliance stops automatically. The safety features have an automatic reset, so wait for the motors to cool (15 to 30 minutes), before restarting the machine. If the problem persists, switch off the power supply to the machine (unplug the cord from the mains socket (22)) and call in the maintenance service or contact a Omcan approved dealer.

SAFE ACCESS TO THE TOOLS

The juice extractor can only be started if the feed channel (3) and bowl (1) are positioned correctly and the cover (2) is locked in the lowered position. Removing the feed channel (3) or lifting the cover (2) results in the machine stopping. Re-starting the juice extractor requires specific operation of the "On/Off" push button (9) again. A cut in the mains power supply stops the machine.

MAINTENANCE

Before carrying out any work on the cold press juicer, it must in all cases be unplugged from the mains power supply and wait 20 seconds for the capacitor of the electronic board to discharge.

SPARE PARTS

IMPORTANT: The use of spare parts other than certified original Omcan parts is prohibited.

This machine requires no specific maintenance because the bearings are lubricated for life. If any intervention is necessary to replace parts subject to wear, such as the sieve (13), the scrapers (15), the seals (16), (18), (20), (21), the electrical or other components, please refer to the parts list (see the exploded view at the end of this manual). For all spare part orders (see references in the exploded view at the end of the manual), state the type, the machine serial number and the electrical specifications recorded under the machine.

SERVICING

Neither a hose nor a pressure hose should be used for cleaning.

- After use, clean the plunger (4), the feed channel (3), the bowl (1), the top screw (11), the bottom screw (12), the sieve (13), the scrapers (15), the discharge cone (17), the seal (18), the ring (19) and the pulp container (5) in clean water or with a dish washing detergent product designed for this purpose. Then rinse and dry. Do not use abrasive products or materials to clean the basket assembly.
- The base is to be cleaned with a soft damp sponge, then dried.

CAREFUL

For easier cleaning, do not leave food remains to dry on the parts in contact with the food and clean all these parts of the machine immediately after the work is finished.

Troubleshooting

THE MACHINE WILL NOT START

- Check: the mains supply and the condition of the power supply cord.
- Check: the presence of the feed channel (3) and the locking of the cover (2) in the lowered position Fig.13.

Troubleshooting

THE MACHINE STOPS BECAUSE THE MOTOR HAS OVERHEATED (THE CASINGS AROUND THE MOTOR UNITS ARE HOT)

- Remove the plug from the power supply socket and follow the instructions in the section on “motor over-heat safety feature”.

THE MACHINE STOPS BECAUSE OF A JAM

- See the section on “jamming”.

THE MACHINE IS NOISY

- Check the parts are positioned correctly.
- Check no part has been damaged by a fall or the suchlike: if so, replace this part.

Thank you for choosing Omcan | Merci d'avoir choisi Omcan | Gracias por elegir Omcan

Since 1951 Omcan has grown to become a leading distributor of equipment and supplies to the North American food service industry. Our success over these many years can be attributed to our commitment to strengthen and develop new and existing relationships with our valued customers and manufacturers. Today with partners in North America, Europe, Asia and South America, we continually work to improve and grow the company. We strive to offer customers exceptional value through our qualified local sales and service representatives who provide convenient access to over 5,000 globally sourced products.

Depuis 1951 Omcan a grandi pour devenir un des “leaders” de la distribution des équipements et matériel pour l’industrie des services alimentaires en Amérique du Nord. Notre succès au cours de ces nombreuses années peut être attribué à notre engagement à renforcer et à développer de nouvelles et existantes relations avec nos clients et les fabricants de valeur. Aujourd’hui avec des partenaires en Amérique du Nord, Europe, Asie et Amérique du Sud, nous travaillons continuellement à améliorer et développer l’entreprise. Nous nous efforçons d’offrir à nos clients une valeur exceptionnelle grâce à nos ventes locales qualifiées et des représentants de service qui offrent un accès facile à plus de 5000 produits provenant du monde entier.

Desde 1951 Omcan ha crecido hasta convertirse en un líder en la distribución de equipos y suministros de alimentos en América del Norte industria de servicios. Nuestro éxito en estos años se puede atribuir a nuestro compromiso de fortalecer y desarrollar nuevas relaciones existentes con nuestros valiosos clientes y fabricantes. Hoy con socios de América del Norte, Europa, Asia y América del Sur, que trabajan continuamente para mejorar y crecer la empresa. Nos esforzamos por ofrecer a nuestros clientes valor excepcional a través de nuestro local de ventas y representantes de los servicios que proporcionan un fácil acceso a más de 5,000 productos con origen a nivel mundial.
