## Disclaimer

---

*OMCAN IS NOT RESPONSIBLE FOR ANY DAMAGES DUE TO WATER LEAKS. WARRANTY FOR WATER LEAKS IS VOID IF THE AMBIENT ROOM TEMPERATURE EXCEEDS 75°F AND 55% RELATIVE HUMIDITY, AND THE APPLIANCE DRAIN IS NOT CONNECTED DIRECTLY TO A FLOOR DRAIN.*

---

*OMCAN N'EST PAS RESPONSABLE DES DOMMAGES DUS AUX FUITES D'EAU. LA GARANTIE POUR LES FUITES D'EAU EST ANNULÉE SI LA TEMPÉRATURE AMBIANTE DE LA PIÈCE DÉPASSE 75°F ET 55% D'HUMIDITÉ RELATIVE, ET SI LE DRAIN DE L'APPAREIL N'EST PAS RACCORDÉ DIRECTEMENT À UN DRAIN DE PLANCHER.*

---

*OMCAN NO SE HACE RESPONSABLE DE LOS DAÑOS CAUSADOS POR FUGAS DE AGUA. LA GARANTÍA POR FUGAS DE AGUA QUEDA ANULADA SI LA TEMPERATURA AMBIENTE SUPERA LOS 75°F Y EL 55% DE HUMEDAD RELATIVA, Y EL DESAGÜE DEL APARATO NO ESTÁ CONECTADO DIRECTAMENTE A UN DESAGÜE DE PISO.*

# General Information

---

**Omcan Manufacturing and Distributing Company Inc., Food Machinery of America, Inc. dba Omcan and Omcan Inc. are not responsible for any harm or injury caused due to any person's improper or negligent use of this equipment. The product shall only be operated by someone over the age of 18, of sound mind, and not under the influence of any drugs or alcohol, who has been trained in the correct operation of this machine, and is wearing authorized, proper safety clothing. Any modification to the machine voids any warranty, and may cause harm to individuals using the machine or in the vicinity of the machine while in operation.**

## CHECK PACKAGE UPON ARRIVAL

Upon receipt of an Omcan shipment please inspect for external damage. If no damage is evident on the external packaging, open carton to ensure all ordered items are within the box, and there is no concealed damage to the machine. If the package has suffered rough handling, bumps or damage (visible or concealed), please note it on the bill of lading before accepting the delivery and contact Omcan within 24 hours, so we may initiate a claim with the carrier. A detailed report on the extent of the damage caused to the machine must be filled out within three days, from the delivery date shown in the shipping documents. Omcan has no recourse for damaged products that were shipped collect or third party.

**Before operating any equipment, always read and familiarize yourself with all operation and safety instructions.**

**Omcan would like to thank you for purchasing this machine. It's of the utmost importance to save these instructions for future reference. Also save the original box and packaging for shipping the equipment if servicing or returning of the machine is required.**

---

**Omcan Fabrication et distribution Compagnie Limitée et Food Machinery d'Amérique, dba Omcan et Omcan Inc. ne sont pas responsables de tout dommage ou blessure causé du fait que toute personne ait utilisé cet équipement de façon irrégulière. Le produit ne doit être exploité que par quelqu'un de plus de 18 ans, saine d'esprit, et pas sous l'influence d'une drogue ou d'alcool, qui a été formé pour utiliser cette machine correctement, et est vêtu de vêtements de sécurité appropriés. Toute modification de la machine annule toute garantie, et peut causer un préjudice à des personnes utilisant la machine ou des personnes à proximité de la machine pendant son fonctionnement.**

## VÉRIFIEZ LE COLIS DÈS RÉCEPTION

Dès réception d'une expédition d'Omcan veuillez inspecter pour dommages externes. Si aucun dommage n'est visible sur l'emballage externe, ouvrez le carton afin de s'assurer que tous les éléments commandés sont dans la boîte, et il n'y a aucun dommage dissimulé à la machine. Si le colis n'a subi aucune mauvaises manipulations, de bosses ou de dommages (visible ou cachée), notez-le sur le bon de livraison avant d'accepter la livraison et contactez Omcan dans les 24 heures qui suivent, pour que nous puissions engager une réclamation auprès du transporteur. Un rapport détaillé sur l'étendue des dommages causés à la machine doit être rempli dans un délai de trois jours, à compter de la date de livraison indiquée dans les documents d'expédition. Omcan n'a aucun droit de recours pour les produits endommagés qui ont été expédiés ou cueillis par un tiers transporteur.

**Avant d'utiliser n'importe quel équipement, toujours lire et vous familiariser avec toutes les opérations et les**

## General Information

---

consignes de sécurité.

Omcan voudrais vous remercier d'avoir choisi cette machine. Il est primordial de conserver ces instructions pour une référence ultérieure. Également conservez la boîte originale et l'emballage pour l'expédition de l'équipement si l'entretien ou le retour de la machine est nécessaire.

Omcan Empresa De Fabricacion Y Distribucion Inc. Y Maquinaria De Alimentos De America, Inc. dba Omcan y Omcan Inc. no son responsables de ningun daño o perjuicio causado por cualquier persona inadecuada o el uso descuidado de este equipo. El producto solo podra ser operado por una persona mayor de 18 años, en su sano juicio y no bajo alguna influencia de droga o alcohol, y que este ha sido entrenado en el correcto funcionamiento de esta máquina, y ésta usando ropa apropiada y autorizada. Cualquier modificación a la máquina anula la garantía y puede causar daños a las personas usando la máquina mientras esta en el funcionamiento.

### REVISE EL PAQUETE A SU LLEGADA

Tras la recepcion de un envio Omcan favor inspeccionar daños externos. Si no hay daños evidentes en el empaque exterior, Habra el carton para asegurarse que todos los articulos solicitados estén dentro de la caja y no encuentre daños ocultos en la máquina. Si el paquete ha sufrido un manejo de poco cuidado, golpes o daños (visible o oculto) por favor anote en la factura antes de aceptar la entrega y contacte Omcan dentro de las 24 horas, de modo que podamos iniciar una reclamación con la compañía. Un informe detallado sobre los daños causados a la máquina debe ser llenado en el plazo de tres días, desde la fecha de entrega que se muestra en los documentos de envío. Omcan no tiene ningun recurso por productos dañados que se enviaron a recoger por terceros.

**Antes de utilizar cualquier equipo, siempre lea y familiarizarse con todas las instrucciones de funcionamiento y seguridad.**

Omcan le gustaría darle las gracias por la compra de esta máquina. Es de la mayor importancia para salvar estas instrucciones para futuras consultas. Además, guarda la caja original y el embalaje para el envío del equipo si servicio técnico o devolución de la máquina que se requiere.

## Safety and Warranty

---

- To minimize shock and fire hazards, be sure not to overload the outlet.
- To minimize electric shock and malfunction, do not spray the unit with water.
- To minimize fire hazards, do not use flammable spray products near the unit.
- After unplugging the unit, wait at least 6 minutes before re-plugging it. It may cause compressor failure if plugged in before 6 minutes waiting period.
- Cautions for cleaning:
  - Unplug the power cord before cleaning.
  - Do not unplug-plug the power cord with wet hands.

# Safety and Warranty

---

- Do not use an abrasive cleaners, solvents or polishing agents on plastic parts. Doing so might cause cracking or discoloring.
- When it is not in use:
  - Unplug the power cord.
  - Wipe inside with dry cloth, and you may leave the door slightly open to eliminate moisture and odor.

**RESIDENTIAL USERS: vendor assumes no liability for parts or labor coverage for component failure or other damages resulting from installation in non-commercial or residential applications. The right is reserved to deny shipment for residential usage; if this occurs, you will be notified as soon as possible.**

## **2 YEARS PARTS AND LABOUR / 5 YEARS PARTS ONLY ON COMPRESSOR WARRANTY**

Within the warranty period, contact Omcan Inc. at 1-800-465-0234 to schedule an Omcan authorized service technician to repair the equipment locally.

Unauthorized maintenance will void the warranty. Warranty covers electrical and part failures, not improper use.

Please see <https://omcan.com/disclaimer> for complete info.

### **WARNING:**

The packaging components are classified as normal solid urban waste and can therefore be disposed of without difficulty.

In any case, for suitable recycling, we suggest disposing of the products separately (differentiated waste) according to the current norms.

**DO NOT DISCARD ANY PACKAGING MATERIALS IN THE ENVIRONMENT!**

# Installation

---

## IMPORTANT!!!PLEASE READ BEFORE INSTALLATION

- The refrigeration system operates most efficiently when installed in an area with cool, dry air circulation.
- There must be at least 6 inches of clearance on both sides and the back of the cabinet.
- Select a location away from the heat and moisture generating equipment such as stoves, ovens, etc.
- Avoid direct sun rays.
- Be sure that the floor where you intend to install that unit is strong and level enough to support the total weight of the unit and its contents.
- To minimize shock and fire hazards, be sure that the unit is properly grounded. For your safety and protection, all units are equipped with a special three-prong grounding plug on the service cord.
- All units are designed for indoor use. Outdoor use may cause significant damage to the unit.

# Maintenance

---

- When loading the unit:
  - Be careful not to block the air duct located at the back and the fan on the ceiling of the unit with contents.
  - Blocking the air flow may cause decrease in performance.
  - For the best performance, maintain at least 4 inches of clearance between the contents and the air duct.
- Set the shelves that come with the unit to fit your needs.
- Temperature controller:
  - The controller is located at the right, front corner of the ceiling, or on the front bottom panel.
  - To adjust temperature please refer to the manual of temperature controller.
- Do not leave the unit door open for long period of time. For the most efficient operation, close the door immediately after the use.

## ICE ACCUMULATION MAY OCCUR IN FREEZERS

- Try to reduce the amount of time the freezer doors remain open to prevent ice accumulation.
- Keep door seals clean to prevent air leakage.
- Scrape off any ice accumulated or try manual defrost mode.

# Troubleshooting

---

| SYMPTOMS                   | POSSIBLE CAUSE                               |
|----------------------------|----------------------------------------------|
| Compressor will not start. | Check if the power cord has been plugged in. |
|                            | Check for blown fuse.                        |

# Troubleshooting

| SYMPTOMS                              | POSSIBLE CAUSE                                                                                 |
|---------------------------------------|------------------------------------------------------------------------------------------------|
| Poor performance.                     | Move the unit from direct sun light, and avoid installing heating devices near the unit.       |
|                                       | Install the unit in a well ventilated place with minimum of 6" clearance in the back.          |
|                                       | Check the condenser, and clean if heavy dust is collected.                                     |
|                                       | Check to see if contents are blocking the air duct.                                            |
|                                       | Check to see if refrigerant charge is low.                                                     |
|                                       | Make sure the door is completely closed.                                                       |
| No interior light.                    | Turn off the light switch and turn it on again.                                                |
|                                       | Make sure the light is correctly inserted into the sockets.                                    |
|                                       | Check the light, and replace it if blown.                                                      |
| Unit noisy.                           | Make sure to install the unit on level surface.                                                |
|                                       | Make sure to maintain the minimum clearance of 6" from the wall.                               |
|                                       | Check for the loose parts or mounting.                                                         |
|                                       | Make sure the tubing is free from any contact to avoid tubing rattle.                          |
| Condensation on cabinet and/or floor. | Reduce the relatively humidity in the area where the unit is installed.                        |
|                                       | Gasket on door or head section is not sealing properly. Repair or replace gasket as necessary. |

# Controller Instructions

Digital controller model: PJEZ for cooler

Dimensioni (mm) / Dimensions (mm)

Fig. 1

## Display and functions

During normal operation, the controller displays the value of the probe set using parameter/4(=1 ambient probe, default, = 2 second probe, = 3 third probe). In addition, the display has LEDs that indicate the activation of the control functions (see Table 1), while the 3 buttons can be used to activate/deactivate some of the functions(see Table 2).

### LED's and Associated Functions (Table 1)

| Icon                                                                                | Function   | Normal Operation                                 |                                                      |         | Start Up         |

|  | Set Mute        | - 1 sec.: display/set the set point.<br>- more than 3 secs.: access parameter setting menu (enter password)<br>- mute audible alarm (buzzer) | -                           | Pressed together<br>Start parameter reset procedure | For 1 sec. display firmware vers. code<br><br>For 1 sec. RESET current EZY set |

## Setting the set point (desired temperature)

- press **SET** for 1 sec, the set value will start flashing after a few moments;
- increase or decrease the value using **UP** or **DOWN**;
- press **SET** to confirm the new value.

## Switching the device ON/OFF

Press **UP** for more than 3 sec. The control and defrost algorithms are now disabled and the Instrument displays the message "OFF" alternating with the temperature read by the set probe.

## Manual defrost

Press for **DOWN** more than 3 sec (the defrost starts only the temperature conditions are valid).

## Continuous cycle

Press **UP** and **DOWN** together for more than 3 sec.

## Access and setting type F (frequent) and type C (configuration) parameters.

1. Press **SET** for 3 sec (the display will show "PS").
2. • To access the type F and C parameter menu, enter the password "22" using **UP/DOWN**, press **SET** to confirm.  
• To access the F parameter menu only, press **SET** (without entering the password).

# Controller Instructions

3. Scroll inside the parameter menu using **UP/DOWN**.

- To display/set the values of the parameter displayed, press **SET**, then **UP/DOWN** and finally **SET** to confirm the changes (returning to the parameter menu).

To save all the new values and exit the parameter menu, press **SET** for 3 s.

To exit the menu without saving the changed values (exit by timeout) do not press any button for at least 60 s.

## Setting the set point (desired temperature value)

To display or set the set point, proceed as follow:

1. press the "Set" button for more than 1 second to display the set point;
2. increase or decrease the value of the set point, using the " AUX" and " def" respectively, until reaching the desired value;
3. press the "Set" button again to confirm the new value,

## Alarms with manual reset

The alarms with manual reset can be reset by pressing the " Prg mute" and " AUX" for more than 5 sec.

# Controller Instructions

## Manual defrost

As well as the automatic defrost function, a manual defrost can be enabled, if the temperature conditions allow, by pressing the " def" button for more than 5 sec.

## Continuous cycle

Pressing the buttons " aux" and " def" simultaneously for more than 5 seconds enables the continuous cycle function. During operation in continuous cycle, the compressor continues to operate for the time "cc" and it stops when it reaches the "cc" time out or the minimum temperature has been reached (AL = minimum temperature alarm threshold). Continuous cycle setting: "cc" parameter (continuous cycle duration): "cc"=0 never active; "c6" parameter (by passing the alarm after the continuous cycle): "cc" = 0 never active; it avoid or delays the low temperature alarm after the continuous cycle.

## Accessing the configuration parameter (type C)

1. Pressing the " Prg" and "Set" buttons at the same time for more than 5 sec, the display will show "00"(password prompt).
2. Use the " aux" or " def" buttons to display the number "22" (parameter access password).
3. Confirm by pressing "Set".
4. The display will show the first modifiable "C" parameter.

## Accessing the configuration parameter (type F)

1. Hold the " Prg" button for more than 5 s (if there are active alarms, first mute the buzzer), the display will show the first modifiable "F" parameter.

## Modifying the parameters

After having displayed the parameter, either type "C" or type "F", proceed as follows:

1. Use the " aux" or " def" buttons to scroll the parameters, until reaching the parameter to be modified; when scrolling the parameters, an icon is shown on the display that represents the category of the parameter.
2. Alternatively, press the " Prg" button to display a menu that can be used to quickly access the family of parameters to be modified.
3. Scrolling the menu using the " aux" and " def" buttons displays the codes of the various categories of parameter, accompanied by the corresponding icon on the display(if present).
4. Once having reached the desired category, press "Set" to go directly to the first parameter in the chosen category(if no parameter is visible, pressing the "Set" button will have no effect).
5. At this stage, modify the parameters or return to the "Category" menu, using the " Prg" button.
6. Press "Set" to display the value associated with the parameter.
7. Increase or decrease the value using the " aux" or " def" buttons respectively.
8. Press "Set" to temporarily save the new value and return to the display of the parameter.
9. Repeat the operation from point 1 or point 2.
10. If the parameter has sub-parameters, press "Set" to display the first sub-parameter.
11. Press the " aux" or " def" button to display all the sub-parameters.

# Controller Instructions

12. Press **"Set"** to display the associated value.
13. Increase or decrease the value using the " " or " " button respectively.
14. Press **"Set"** to temporarily save the new value and return to the display of the sub-parameter code.
15. Press " " to return to the display of the parent parameter.

## Saving the new values assigned to the parameters

To definitely save the new values of the modified parameters, press the " " button for more than 5 seconds, thus exiting the parameter setting procedure. All the modification made to the parameters temporarily saved in the RAM, can be cancelled and "normal operation" resumed by not pressing any button for 60 seconds, thus allowing the parameter setting session to expire due to timeout if the Instrument is switched off before pressing the " " button, all the modifications made to the parameters and temporarily saved will be lost.

## Mechanical Controller Instructions

OFF: shut the compressor off

Temperature range from 7 (coldest) to 1 (warmest).

**CAUTION:** Setting the temperature control to the coldest setting may cause the evaporator coil to freeze and ice up. This will eventually result in a warmer cabinet temperature.

|----------|--------------------------------------------------------------------|----------|----------|-------------------------------------------------------|----------|----------|---------------------------------------------|----------|
| AG557    | Parts of Compressor for 53032                                      | 1        | AN128    | Left Shelf for 53032                                  | 21       | AE890    | Upper Left Hinge for 53032                  | 40       |
| AE876    | Compressor before July 2020 for 53032                              | 2        | AE884    | Light Box Plate for 53032                             | 22       | AN136    | Door Gasket for 53032                       | 41       |
| AE915    | Compressor (T6217Z) after July 2020 for 53032                      | 2        | AE885    | Light Box Frame for 53032                             | 23       | AB966    | Upper Right Hinge Holder for 53032          | 42       |
| AS734    | Condenser Fan Motor before July 2020 for 53032                     | 3        | AN129    | LED Light in Light Box for 53032                      | 24       | AN137    | Bottom Left Hinge for 53032                 | 43       |
| AA984    | Condenser Fan Motor after July 2020 for 53032                      | 3        | AA722    | LED Light before July 2020 for 53032                  | 25       | AA715    | Axis Cover for 53032                        | 44       |
| AA764    | Condenser/Evaporator Fan Motor Blade for 53032                     | 4        | AG461    | LED Light after July 2020 for 53032                   | 25       | AA714    | Hinge Axis for 53032                        | 45       |
| AL996    | Condenser Fan Cover for 53032                                      | 5        | AN130    | LED Power Supply for 53032                            | 27       | AN138    | Bottom Right Hinge for 53032                | 46       |
| AA300    | Condenser for 53032                                                | 6        | AE886    | Evaporator Cover before July 2020 for 53032           | 28       | AE875    | Right Glass Door for 53032                  | 47       |
| AE878    | Caster Supporter for 53032                                         | 7        | AI380    | Evaporator Cover after July 2020 for 53032            | 28       | AN139    | Glass Door Handle for 53032                 | 48       |
| AB974    | Handle for Installation Board for 53032                            | 8        | AN132    | Left Evaporator Fan Fixer for 53032                   | 29       | AE874    | Left Glass Door for 53032                   | 49       |
| AA304    | Installation Board Limited Block for 53032                         | 9        | AA710    | Evaporator Fan Motor Cover before July 2020 for 53032 | 30       | AE891    | Air Pipe Protection Board for 53032         | 50       |
| 26247    | Caster without Brake for 53032                                     | 10       | AH713    | Evaporator Fan Motor Cover after July 2020 for 53032  | 30       | AA135    | Power Cord for 53032                        | 51       |
| 26246    | Caster with Brake for 53032                                        | 11       | AA791    | Evaporator before July 2020 for 53032                 | 31       | AA216    | Drain Tube for 53032                        | 52       |
| AN126    | Back Grill for 53032                                               | 12       | AN133    | Evaporator after July 2020 for 53032                  | 31       | AA686    | Plastic Drain Pipe with Fixer for 53032     | 53       |
| AN140    | Front Grill for 53032                                              | 13       | AN134    | Right Evaporator Fan Fixer for 53032                  | 32       | AA703    | Power Cord Cover for 53032                  | 54       |
| AI385    | Waterproof Cover of Thermostat for 53032                           | 14       | AA794    | Power Cord Cover for 53032                            | 33       | AA874    | Outer Drain Pan for 53032                   | 55       |
| 27185    | Carel Temperature Controller PYGX1Z0501 before July 2020 for 53032 | 15       | AN135    | Fixer for Probe for 53032                             | 34       | AE892    | Left Rail for Installation Board for 53032  | 56       |
| AI375    | Dixell Temperature Controller after July 2020 for 53032            | 15       | AI382    | Temperature Probe for 53032                           | 35       | AE893    | Installation Board for 53032                | 57       |
| AA362    | LED Light Switch for 53032                                         | 16       | AA764    | Condenser/Evaporator Fan Motor Blade for 53032        | 36       | AE894    | Right Rail for Installation Board for 53032 | 58       |
| AA124    | Power Switch for 53032                                             | 17       | AS735    | Evaporator Fan Motor before July 2020 for 53032       | 37       | AB595    | Filter Fixer for 53032                      | 59       |
| AA777    | Shelf Tag for 53032                                                | 18       | AI321    | Condenser Fan Motor after July 2020 for 53032         | 37       | AI968    | Filter for 53032                            | 60       |
| 26884    | K Clip for 53032                                                   | 19       | AA712    | Inner Drain Tube Connector for 53032                  | 38       |          |                                             |          |
| AN127    | K Strip for 53032                                                  | 20       | AA528    | Inner Drain Pipe for 53032                            | 39       |          |                                             |          |

| Item No. | Description                                                         | Position | Item No. | Description                                      | Position | Item No. | Description                                  | Position |
|----------|---------------------------------------------------------------------|----------|----------|--------------------------------------------------|----------|----------|----------------------------------------------|----------|
| AE895    | Castor Supporter for 51033                                          | 1        | AE900    | K Strip for 51033                                | 19       | AA207    | Condenser Fan Motor Cover for 51033          | 36       |
| AE896    | Right Track for Installation Board for 51033                        | 2        | 26884    | K Clip for 51033                                 | 20       | AB594    | Filter for 51033                             | 37       |
| AA185    | Leveling Feet for 51033                                             | 3        | AA693    | Shelf Tag for 51033                              | 21       | AB595    | Filter Fixer for 51033                       | 38       |
| AE897    | Left Track for Installation Board for 51033                         | 4        | AA694    | Shelf for 51033                                  | 22       | AE904    | Compressor Unit Installation Board for 51033 | 39       |
| AE898    | Back Plate for 51033                                                | 5        | AA695    | Glass Door Handle for 51033                      | 23       | AE905    | Outer Drain Pan before March 2022 for 51033  | 40       |
| AA528    | Inner Drain Pipe for 51033                                          | 6        | AA696    | Glass Door for 51033                             | 24       | AS736    | Outer Drain Pan after March 2022 for 51033   | 40       |
| AA214    | Thermostat Water Proof Cover for 51033                              | 7        | AA697    | Glass Door Gasket for 51033                      | 25       | AE906    | Compressor before March 2022 for 51033       | 41       |
| AA216    | Drain Tube for 51033                                                | 8        | AA699    | Upper Right Hinge Holder for 51033               | 27       | AI386    | Compressor after March 2022 for 51033        | 41       |
| AA686    | Plastic Drain Pipe with Fixer for 51033                             | 9, 10    | AA304    | Installation Board Limited Block for 51033       | 28       | AA208    | Condenser Fan Blade for 51033                | 42       |
| AA687    | Drain Pipe Cover for 51033                                          | 11       | AE901    | Evaporator Fan Motor before March 2022 for 51033 | 29       | AQ882    | Condenser before March 2022 for 51033        | 43       |
| AN141    | Front Grille for 51033                                              | 12       | AA128    | Condenser Fan Motor after March 2022 for 51033   | 29       | AA709    | Condenser after March 2022 for 51033         | 43       |
| 27185    | Carel Temperature Controller PYGX1Z0501 before March 2022 for 51033 | 13       | AE902    | Evaporator Cover for 51033                       | 30       | AA710    | Evaporator Fan Motor Cover for 51033         | 44       |
| AI375    | Dixell Temperature Controller after March 2022 for 51033            | 13       | AA702    | Evaporator for 51033                             | 31       | AA711    | LED Power Supply for 51033                   | 45       |
| AA362    | LED Light Switch for 51033                                          | 14       | AA135    | Power Cord for 51033                             | 32       | AA712    | Inner Drain Tube Connector for 51033         | 46       |
| AA124    | Power Switch for 51033                                              | 15       | AA703    | Power Cord Cover for 51033                       | 33       | AA713    | Bottom Right Hinge Holder for 51033          | 47       |
| AA689    | Upper Hinge Cover for 51033                                         | 16       | AE903    | Back Grill for 51033                             | 34       | AA714    | Hinge Axis for 51033                         | 48       |
| AA690    | LED Light for 51033                                                 | 17       | AM516    | Condenser Fan Motor before March 2022 for 51033  | 35       | AA715    | Axis Cover for 51033                         | 49       |
| AB974    | Handle for Installation Board for 51033                             | 18       | AL932    | Condenser Fan Motor after March 2022 for 51033   | 35       |          |                                              |          |

**Thank you for choosing Omcan | Merci d'avoir choisi Omcan | Gracias por elegir Omcan**

Since 1951 Omcan has grown to become a leading distributor of equipment and supplies to the North American food service industry. Our success over these many years can be attributed to our commitment to strengthen and develop new and existing relationships with our valued customers and manufacturers. Today with partners in North America, Europe, Asia and South America, we continually work to improve and grow the company. We strive to offer customers exceptional value through our qualified local sales and service representatives who provide convenient access to over 6,500 globally sourced products.

---

Depuis 1951 Omcan a grandi pour devenir un des “leaders” de la distribution des équipements et matériel pour l’industrie des services alimentaires en Amérique du Nord. Notre succès au cours de ces nombreuses années peut être attribué à notre engagement à renforcer et à développer de nouvelles et existantes relations avec nos clients et les fabricants de valeur. Aujourd’hui avec des partenaires en Amérique du Nord, Europe, Asie et Amérique du Sud, nous travaillons continuellement à améliorer et développer l’entreprise. Nous nous efforçons d’offrir à nos clients une valeur exceptionnelle grâce à nos ventes locales qualifiées et des représentants de service qui offrent un accès facile à plus de 6500 produits provenant du monde entier.
