KITCHEN EQUIPMENT

TABLE MODEL MEAT GRINDER

FEATURES

Large filling tray with hand protection

Completely made of stainless steel

High quality knives & plates

Knives and plates made of special carbon steel of the highest strength and durability.

This material is characterized by significantly lower wear and tear, which prolongs the service life of the knives and plates and prevents contamination of the meat by abrasion of metal particles as with soft stainless steel alloys.

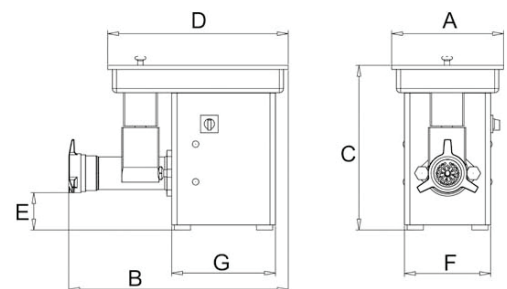

Extraordinarily robust motor-gear unit

- High performance and energy efficiency, quieter and less heat generation
- Overheating protection
- Rugged gearbox made of steel, with oil bath
- Automatic safety switch
